Yosemite Valley has a new drinking fountain for campers who decide to bring their own water. The new water dispensing device is the first of its kind in the park and is expected to become popular with campers as the weather warms, said Yosemite National Park spokeswoman Bridget Duignan. The 11-ounce hoses are placed under a large boulder and the campers use a cup or their hands to fill up the water hose. Duignan said there are 75 of these new units throughout the park, replacing the water pouches that have been used in the past. Several campgrounds and trailheads also will be installing these hoses in the coming months to accommodate campers who arrive in Yosemite in a cool weather frame of mind. These hoses are also popular with campers who visit Yosemite for dinner or a night spent at the campsites along the Loop trail. Yosemite’s new hoses will be used to replace the water pouches that have been used in the past as the park installs the new drinking fountains, filling stations and water stations

Elden Ring Free Latest

A cute looking strategy RPG with a hint of magic, Elden Ring is set in a fantasy world where mysterious creatures called the Grace are trying to destroy the world. The game, which combines action RPG and strategy RPG elements, will be released for PS Vita in Japan on September 29, 2013. Elden Ring features over 100 types of miniatures, including skills, weapon types, and armor that are in full color. It includes both local wireless multiplayer and online asynchronous play as well as real-time cooperative multiplayer with up to four players. In the game, you play as a half-Elden, half-human teenager named Arisa Rimi, who comes from the Land of Namelessness. Your soul is trapped in a clock and your body is trapped in a stone statue. You must travel across the Lands Between, where you can meet other characters. These characters are the game's main characters, and each one has their own story. Traverse the Lands Between to Unite with Friends You can unite with friends in co-op mode to create a party. Each player controls a character in turn-based mode, and during a turn, they can move their character, attack, and use items. During a battle, each player can attack in unison. You can directly command the player's actions using the touch screen or by targeting different areas of the characters with the action buttons. Characters in the game all use a mix of magic and technology. There are also unusual types of armor, weapons, and accessories that can be equipped. Equipment can be selected using the touch screen or with the directional pad. Let Your Imagination Run Wild In the game, you have the ability to freely create new equipment that you can equip during the battle. In addition, you can freely create and arrange new maps, such as adding or removing the scenery, and the new map settings will show on the touch screen. By touching a new map, you can invite a new character into battle. Additionally, you can freely add new events, giving you the option of creating new battle situations, such as using a gun or sword. You can also create a character to deal with the map that you've been given. You can also assign characters the same name, giving them the same skills. However, if a character has the same name as the user, a dialogue will open saying that that character bff6bb2d33
